

PORTABLE GROUP ANIMAL SCALE

PORTABLE GROUP ANIMAL SCALE

Reliable Animal Weighing in All Types of Environments

The Portable Group Animal Scale is Rice Lake's latest livestock weighing innovation. This concept has taken Rice Lake's popular animal scale and made it portable – improving the scale's efficiency and versatility. Accurate weighing anywhere, anytime!

Durable Design

The Portable Group Animal Scale's patented design consists of a rubberized deck and pen sides, suspended on load cells at four points within a portable base frame. When in transport mode, the cage is locked down to the base frame. This prevents cage movement and load cell damage during transport.

Easy to Use

Load is applied to or removed from the cells through a manual lift/lower lever system.

Rugged Versatility

Rice Lake's onboard weighing design is ideally suited to the unpredictable conditions of multisite use. The Portable Group Animal Scale can provide Legal for Trade weights in locations where the scale may be off level by as much as four degrees or 6 percent.

In addition to the scale's ability to meet the physical demands of remote weighing, the instrumentation package that complements the scale provides a complete report for each batch and lot of animals weighed. When the scale is in weigh mode, the deck is only 6 inches off the ground. The low profile of the rubberized weighing platform makes loading and unloading animals quick, easy and safe.

Legal for Trade

Rice Lake's Portable Group Animal Scales are NTEP approved in the U.S., an approval that is generally accepted by most state agencies. It is also approved in Canada by Measurement Canada.

Features

The Portable Group Animal Scale includes a rubberized deck and a premium quality powder paint system. Also two standard gates, and a rubber T-belt on entry and exit are included.

Model	Capacity lb/kg	Deck Dimension (width x length)	Outside Dimension (width x length)
MASP-13	15,000/6500	7'5" x 12'9"	8'4" x 13'6"
MASP-18	20,000/9000	7'5" x 18'6"	8'4" x 19'3"

ONBOARD WEIGH CENTER

The weigh center is conveniently mounted on the exterior of the cage so that all transactions are easily viewed by the operator. A legal ticket can be printed for your records. The weatherproof enclosure protects the instrumentation and printer for years of trouble-free use.

Optional

- Ticket printer
- Tape printer
