TSA Truck Scale Assembly

APPLICATIONS

- Truck, track, horizontal tank or general purpose
- · Light-duty livestock to heavy-duty vehicle scales

STANDARD FEATURES

- Capacities: 10,000-75,000 lb (4535.9-34,019.4 kg)
- · Constructed of cast steel and iron with primer coating
- Unique high-performance "Unilink" suspension system
- Center-loaded double-ended shear beam design
- Self-checking design
- Rubber pad provided for mounting

OPTIONAL FEATURES

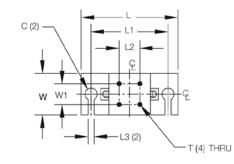

• 20,000-75,000 lb (9071.9-34,019.4 kg) capacity NTEP Certified load cells available for 1:10,000d, Class IIIL

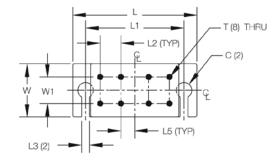

NOTE: Check with your local weights & measure officials for suitability in Legal for Trade applications.

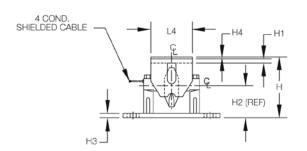

Mount only; does not include load cell Picture is a representation of actual product

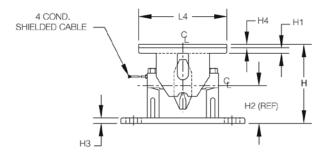

The TSA truck scale assembly is designed for use with Rice Lake Weighing Systems RL75058 or Vishay Sensortronics 65058. The "Unilink" suspension design checks lateral movement of the assembly, while controlled floating of the scale deck is allowed. The effective integration of the TSA mount and the double-ended shear beam load cell eliminates the need for troublesome check rods, links, expansion assemblies and other peripheral hardware.
